EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows because there is no previous recitation of a photoconductive drum in claims 1, 3, and 4 but rather an image bearing body in claim 1:

As to claim 3, line 3, change "photoconductive drum" to -- image bearing body --.

As to claim 4, line 3, change "photoconductive drum" to -- image bearing body --.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-4 is the inclusion of a developer material having spherical particles and a compressibility in the range of 30 to 55, and the compressibility in percentage being given by

$$A = \{ (D1-D2) / D1 \} \times 100 (\%)$$

where A is compressibility, D1 is aerated bulk density, and D2 is packed bulk density.

This is found in all of claims 1-4, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Koyama et al. (Japan, 499), Nakamura et al. (Japan, 924), Nakamura et al. (Japan, 922), Sugiura et al., and Okado et al. disclose art in about bulk densities or compression of a developing material.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan S. Lee whose telephone number is 571-272-2137. The examiner can normally be reached on Mon. - Fri., 10:30-8:00, Second Monday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Art Grimley can be reached on 571-272-2136 or 571-272-2800 (Ext. 52). The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
